## Danish Fish Oil made from 100% Fish with Omega 3 - EPA/DHA

Skaga Omega 3 Fish Oil is made 100% from fish (wildcaught fish), caught in Danish waters and all the way up to the northern fishing grounds in the Atlantic Ocean. Refined by FF Skagen, which is certified in accordance with quality, environment and food safety - and one of the world's leading producers of fishmeal and fish oil.

Skaga Omega 3 is refined at the world's most advanced processing facility. There are only two such facilities in the world - one is located at FF Skagen at Skagen Harbour, where a hygienic and controlled production produces a clean, fresh product with a high content of Omega 3. Skaga Omega 3 is entirely purified of heavy metals, toxins and impurities. Quite simply, a more pure product is not available - so you can rest assured your horse is receiving the absolute very best.

## Skaga Omega 3 is a natural feed supplement suitable for horses of all breeds

Skaga Omega 3 Fish Oil is a natural feed ingredient to be used as a daily dietary supplement for horses.

Skaga Fish Oil has a high content of Omega 3 (EPA + DHA) to cover the horse's need for essential polyunsaturated fatty acids.

Skaga Omega 3 Fish Oil can be used for horses of all breeds and all ages. Most horses like the taste, however some individual horses might take a short while to become familiar with it.

## Skaga Omega 3 Declaration and fatty acid profile

### Declaration:

Polyunsaturated fatty acids:	1 - 3%
Iodine values	140 - 190
Unsaponified residual	1 - 3%

*International grand prix dressage rider Bo Høstrup from Cajo Stables tells about his experience with Skaga Omega 3...*

Bo Høstrup

” I am completely carried away by the effect on Cajo Stable's horses ..!

Cajo Stables is a competition and training stable with nine horses, including my own competition horses. We are hard to please with our feed and feed supplements and always look for the simple and the most natural.

Fish Oil from Skagen is an effective feed supplement which we use for all the stable's horses. All the horses are amazingly beautiful and have a glossy coat - and has increased energy levels significantly. We also use the oil as "hoof oil" and for efficient wound healing, where the oil is applied directly to the superficial scratches. Skaga Omega 3 is a unique natural product - and the horses like it ... "
